Apply the CRAP method (Contrast, Repetition, Alignment, and Proximity) with the inclusion of effective use of white space.

Utilized the CRAP method and adding some touch of Chemistry as my design, while still keeping it simple.

AOUT ME

I live in Cotabato City. Because of my fascination with Chemistry, I am pursuing BS in Chemistry in Ateneo de Davao University.

When I'm not studying, you may find me reading fictional books, watching anime, or listening to any random music genre depending on my mood.

KILLS & CAREER GOALS

Skills

- Analytical
- Proficient in MS Word, Excel, and Powerpoint
- Collaborative
- Innovative

Career Goals

- To be an organic chemist, whose research focuses on efficiency, green chemistry, and synthesize products that are beneficial to society.
- To share my knowledge in the field of chemistry.

ACHIEVEMENT

Arrupe Social Formation Office collaborated with chemistry majors taking Analytical Chemistry and Environmental Chemistry for student learning program (SLP)

Soil analysis was performed for Sitio Manaong, Brgy. Salaysay, Baguio District Davao City.

The goal was to bridge Chemistry and volunteerism

Thank you

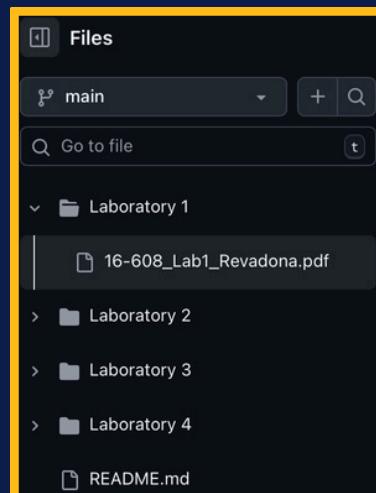

"I am a mosaic of everything I've ever loved."

To create a personal brand which includes:
logo, chosen color palette and font face, and
a tagline

The logo represents my first name 'Francis Jerold' (FJ); the colors and typography were chosen because I'm aiming for professional, formal, and simple aesthetic.

The screenshot shows a GitHub repository interface. On the left, there's a sidebar with navigation links like Code, Issues, Pull requests, Actions, Projects, Wiki, Security, and Insights. Below these are sections for Files, main branch, and a search bar. The main area displays a file tree for the 'Elective-Laboratories' repository. The tree includes 'Laboratory 1' (containing '16-608_Lab1_Revadona.pdf'), 'Laboratory 2' (containing 'logo' folder, '16-608_Lab2 Header_Revadona.png', '16-608_Lab2 Profile Banner_Revadona.png', 'color palette & typography set.png', and 'personal tagline.png'), 'Laboratory 3', 'Laboratory 4', and a 'README.md' file.

Skills learned

-  Better in designing using the CRAP Method
-  Brand making
-  Create projects using my personal branding

Challenges faced

-  Choosing color palette and typography
-  Challenging without any template
-  Navigating Github

Improvements

-  Master aligning elements and texts
-  Selection of elements
-  Communication skills both in design and presentation

Goal

-  Explore other features in canva
